

ENVIRONMENTAL MANAGEMENT ASSOCIATION

FEBRUARY 2019 NEWSLETTER

PRESIDENT'S CORNER [LARRY RUSSETTE, PRESIDENT]

Happy New Year, 2019!! I hope all had a great, safe, and blessed Holiday Season. As is common we reflect on the past year and look forward to 2019. In review of 2018 I believe we made progress that will be the foundation for years of improved offering to our members. In April we had our most successful [Environmental Achievement Awards](#) ceremony, with record attendance honoring four incredible students, two innovative companies, and an industry legend. August held our [annual scholarship program golf outing](#), this year at Plum Hollow Country Club, again with a wonderful turnout. Lastly, in November we held our second joint [science fair mentorship event](#) with the Science & Engineering Fair of Metro-Detroit at the Detroit Public Library that again was a huge success. I would like to thank all for your support in the past as well as the future.

In 2019 we will continue to refine and grow our existing core events, and add several more. Look for a couple of good old fashion (and inexpensive) [networking events](#) to assist in each member's associates, and give potential members the opportunity to get to know what the EMA is about while also enabling them to meet others in the association. I look forward to another year and remind all that you will receive directly what you put into the association. The EMA has a bright and promising future ahead, but that is only possible with your continued support.

Thank you again, and I hope to see all of you at the 2019 events!!

SCIENCE FAIR SUCCESS: 2018 MENTOR PROGRAM

[TRICIA WANAMAKER, EXECUTIVE DIRECTOR]

On November 17, 2018, the EMA held its annual science fair mentorship program in conjunction with the Science & Engineering Fair of Metro-Detroit at the main branch of the Detroit Public Library. "Science Fair Success: Your Best Project" focused on what it takes to construct a proper science fair project, whilst providing students the opportunity to interact with industry professionals to discuss their project ideas and essentially "pick their brains" for inspiration. With over 100 student and parents in attendance, this event was just as successful as last year's program.

What truly makes this event so special is all of our mentor volunteers. Every volunteer brought a unique perspective to the table, coming from

a range of backgrounds within the environmental science field.

THANK YOU to all of this year's event and table sponsors for supporting this exciting event. Your generosity is what enables us to keep going and make events such as these possible.

THANK YOU FOR YOUR GENEROUS CONTRIBUTIONS TO OUR 2018 EVENT

NEW YEAR, NEW BOARD MEMBERS

[TRICIA WANAMAKER, EXECUTIVE DIRECTOR]

2019 marks a year of new and exciting things for the EMA, beginning with the nomination of three new board members representing Loconte, Marine Pollution Control, and PROS Services, including a new face on our Executive Board.

CHELSEA MILLER - MARINE POLLUTION CONTROL

Chelsea Miller is our newest representative of MPC, and has been voted in as Secretary of the EMA. Chelsea graduated from Wayne State University in 2017 with a Bachelor's degree in Environmental Science. She is currently with MPS working as a Hazardous Material Coordinator, characterizing various waste streams for disposal approval.

MIKE LOGAN - LOCONTE CORP.

Mike Logan currently works with Loconte which provides business and environmental consulting services. Prior to that his role was to integrate the Synergy Environmental acquisition into five Republic Services business units and manage the sales team in southeastern Michigan. In 2017 he sold Synergy Environmental to Republic Services after 16 years of operating a waste and recycling company.

KEVIN TURNER - PROS SERVICES

Kevin Turner has been working in the industrial cleaning industry for 14 years now. He started with Vac All as a Hazmat technician doing spill clean ups, industrial cleaning, and confined space rescue. From there he moved on to work for Terra contracting starting with the Enbridge spill on the Kalamazoo river, where he became a Foreman. In mid-2012 I came to PROS Services as a Supervisor for their industrial cleaning and DTE accounts, and in the last year became an account representative.

TO SALT, OR NOT TO SALT: NEAT ALTERNATIVES

[BRAD WOZNAK, SEH INC.]

Road salt is known to be harmful in many ways to the environment. Below are some alternative ideas we can use at home that are interesting and more eco-friendly!!

NaCl
SODIUM
CHLORIDE
(Road Salt)

USED ACROSS
THE UNITED STATES
TO DEICE ROADWAYS

AFFORDABLE

DETRIMENTAL TO
AQUATIC ECOSYSTEMS
AND THE OVERALL
ENVIRONMENT

ROAD SALT ALTERNATIVES

NO ROAD SALT

ROAD SALT CAN BE COMBINED WITH BEET
JUICE OR CHEESE BRINE

CALCIUM
MAGNESIUM
ACETATE

SIMILAR TO
FERTILIZER

ORGANIC METHODS

AUTOMATED
DEICING SYSTEMS

SOLAR-POWERED
SMART ROADS

HEATED
ROADS

POROUS
PAVEMENT

HIGH-TECH SOLUTIONS

*Fictitious elements

Please feel free to send us information about your business and what strides you are making in environmental sustainability, information on upcoming events in the professional community, or any interesting articles related to green practices and environmental sustainability.

Please e-mail all inquiries to Tricia Wanamaker at emadirector@gmail.com

The purpose of the EMA is to establish and maintain an active information exchange between government and industry professionals involved with environmental management to arrive at solutions to environmental issues within a framework of ethics appropriate to the environmental field. The EMA believes in and supports the application of integrity, common sense, sound sciences, and fiscal responsibility in all matters affecting the environment.
